

WE NEED YOUR HELP!

Help a Hero Adopt a room

Non-profit organization, Operation FINALLY HOME, joined Dallas area homebuilder Tim Jackson Custom Homes to build a mortgage free home for war hero Sgt. Stephen Jackel.

Please see part of Stephen's story told in his words! "The wheels were blown out from under us and I went from a seated position to laying sideways when we landed. I tried to lift my legs but they were both broke. I tried to yell and noticed my teeth had pierced my bottom lip, so I had to pull my bottom lip from my teeth then spit out all the blood in my throat. I lifted my right leg up again and my foot went from upright to pointing straight down. I started to work my way to my dismount radio to call up to my platoon sgt the damage we had occurred from the blast when I started to hear the .50 cal. rounds cook off and saw that a fire had come up through where the IED breached the vehicle so I dropped the radio after I told him we had a fire. I moved toward the fire as fast as I could and used my right leg as tool viscosously putting the fire out because the fire suppression system had failed. After I smoldered the fire enough I used the wires running along the ceiling to move my way to rear of the vehicle where I saw my platoon Sgt. He pointed down at the door handle I tried to open it but the hydraulics on the door failed and I reached to the hatched on the ceiling. I then used the strength I had left to reach up to unlock the hatches so we could be free. Never in my whole live did I ever think by the power of GOD could I be a vessel to save the lives of four fellow Soldiers as well as my own..."

Now he needs our help! We are coming to completion on the home and now we need to furnish it.

Help us show the family how much their sacrifice means!

JOIN US IN FURNISHING THEIR HOUSE! ADOPT A ROOM!

Pick a room and get your friends, co-workers, and family to donate towards the room. Your business/names will be placed in the room during the Key ceremony and will be featured on the news!!
